

VDH VIRGINIA DEPARTMENT OF HEALTH

Protecting You and Your Environment

To: COMMUNITY MEMBERS

From: ALLEGHANY/COVINGTON COMMUNITY HEALTH ASSESSMENT PLANNING TEAM

Our community is currently conducting a Community Health Assessment with efforts led by the Alleghany/Covington Health Department. Hard copies of the survey are available at the Covington Health Department, Lewis Gale Hospital - Alleghany, and several other businesses and agencies in the community. Health Department sponsored flu clinic events will also have surveys available for completion. (see flyer)

Please encourage your colleagues, friends and family to complete this survey either by hard copy or share the survey link, <https://www.surveymonkey.com/r/86PKJK5>. We want every teen, young adult, working adult, and senior citizen in our community to be given the opportunity to complete this survey!

A strong response will be a tool we can use to possibly lure businesses and industries to our area, recruit physicians, plan educational improvements, improve access to health care, decrease substance abuse, etc. Your help is vital in the success of this survey process!

We sincerely thank you for your support as we strive to make the Alleghany Highlands the best community in the state!
