The City of Covington is requesting for proposal (RFP) a cost for the potential purchase of an 18 hole outdoor portable mini putt putt golf course.

It is desired to have a modular course that is attractive, user friendly and can withstand weather as well as anticipated heavy public use.

The individual 18 hole modular system should have lightweight interlocking panels, a sturdy mount to ground surface, good drainage and durable.

New or reconditioned course materials will be considered.

This proposed outdoor unit will be part of a vibrant city park system with the planned placement of putt putt in a heavily used sport complex.

Please provide a proposal for the modular putt putt system to:
